

Global Peace Convention Plenary

The Convention Plenary is the culminating event of the Global Peace Convention 2021 bringing together the key concepts discussed in 31 sessions with over 200 experts on topics pertaining to peace and security, education, community development, human rights, entrepreneurship, and much more. The plenary brings together 18 speakers to discuss how all of the sessions tie into this year's theme "Moral and Innovative Leadership in Peacebuilding for Our Changing World" and connects to Global Peace Foundation's values-based approach to peacebuilding. Participants hear important insights about the vision, principles and values that can guide and motivate our collaborative efforts to build lasting peace for our global human family.
